## FIELD SEEDS

103-105 ARCH STREET

PHILADELPHIA, MAR. 17, 1927.

**TRADE CONDITIONS:** Favorable weather is creating an early demand for field seeds in all sections. Stocks of the higher priced items, admittedly less than normal in volume, are being reduced and occasionally a temporary shortage in something results. Our friends are advised to maintain their prestige by continuing to supply customers' needs for seeds regardless of high prices prevailing. We make it a point to ship promptly and account unusual conditions prevailing, are willing to fill orders of any quantity wanted and to ship as often as we may be called upon.

**RED CLOVER:** Stocks Domestic Clover are comparatively small and prices will likely be well maintained. Stocks French Clover are much less than those of a year ago with indications of an advancing market. French Clover has been sown in the Eastern United States for many years with excellent results.

**ALFALFA:** Market about unchanged,—demand large. Account reasonable prices prevailing, farmers should be encouraged to use Alfalfa this Spring and to sow Certified seed.

**ALSYKE:** Stocks very small, market advancing. It may well be expected that the price of Alsike may work as high as \$10.00 per bushel.

**TIMOTHY:** Market quiet and inactive,—prices are quite reasonable.

**SWEET CLOVER:** Demand is large throughout the country. Prices are quite attractive.

**LAWN GRASS SEED:** Nearly every householder in suburban and rural districts is in need of lawn grass seed at this time. We suggest a display immediately of our new OLD ENGLISH canisters. These may be shown effectively with very little trouble.

**SEED POTATOES:** Stocks of all varieties are arriving daily. Certified stock is not too plentiful and the market on Certified Cobblers particularly is very tight. In this connection, we might say that the selected stock we are handling is of fine quality and we are sure will satisfy the most critical trade.

Prices quoted below are to-day's values f. o. b. Philadelphia. Samples sent promptly upon request. Bags not returnable

Quotations above are for French Grown Red Clover seed re-cleaned over various processes to remove impurities peculiar to foreign grown seeds. French Clover seed may be sold at much lower prices in original heavy burlap sacks. It has always been our policy, however, to oppose the distribution to the farmer of foreign grown Clover seed from original imported packages account of the danger of sowing noxious weed seeds.
